Testing environment

Operating System:Android 12.0

Device Model:POCO X3 NFC

QA team

Company:a1qa

QA manager:Daliya Dzhaafar

QA engineers:Dipa Ghosh

Additional information

Testing dates:05.02.2024 - 09.02.2024

Time spent:33 hours

GET PERSONAL VOICEMAIL

Product version: 1.0

General quality analysis

The overall quality of the application can be estimated as **Low**. The total number of defects is [30](#). Functional and GUI defects prevail. [2](#) of them have the Critical severity, [12](#) defects gain the Major severity, [8](#) of them have the Average severity, [7](#) of them have the Minor severity and [1](#) of them have the Enhancement severity. The majority of defects is opened for modules "[Greetings](#)" and "[Quick Status](#)". A detailed quality analysis is presented below.

Detailed quality analysis

The total number of defects by severity

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **46%** of issues have **Critical** and **Major** severity, **Average (27%)** defects prevail and **27%** of issues have **Minor** and **Enhancement** severity.

The total number of defects by Error types in Android Platform

The chart presents the ratio of defects by error types. For **Functional**, [22 issues](#) were found. And for **GUI**, [8 issues](#) were found.

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues actual in "**Greetings**" module (**13**) and in "**Quick Staus**" module (**9**).

Quality of separate modules

Module	Quality	Comments
Settings	<div><div></div>Medium</div>	The quality of this section can be estimated as Medium. As 3 defects were found here. The issue (QATC-833433) concerns GUI: Time before greeting: The unit is not displayed . Another notable defect: (QATC-833445): Purchase \$2.99: When clicking its button, it is not working. The last issue of this module is: (QATC-833470).
Help	<div><div></div>High</div>	The quality of this module is estimated as High. As only 1 defects were found in this section. The issue is : 'How it works' section (Greetings and Quick Status) is not displayed (QATC-833455).
Greetings	<div><div></div>Low</div>	In this section 13 defects were discovered during the testing, Two Critical and some of Major issue was also found in this Greetings module. Two critical issues are: (QATC-833494) and (QATC-833842). The complete list of defects in this module is : All issues of Greeting module .
Quick Status	<div><div></div>Low</div>	In general, the quality of this module can be estimated as Low as the overall number of defects in this module: 9. Follow the link to view all defects found in this module: All issues of Quick Status module .
Others (Applications Name & Openning)	<div><div></div>Medium</div>	The quality of this section is estimated as Medium. 4 defects were found.
